

Tool & Die

Nitrogen Gas Springs

- Large assortment of models, tonnages, strokes, and sizes
- Bore and Rod Seals

Delayed Return Units

- Controllable Gas Springs
- Die Separation Gas Springs

Piercing, Forming, and Roller Cam Units

- Flex Cams
- Roller Cams

Lifters

- Dual Post Lifters
- Stock Lifters
- Flange Strippers

Accessories

- Gas Link Systems (monitor & optimize gas spring force)
 - Control Blocks, Hoses, & Base plates
- Equipment and Tools
 - Nitrogen Gas Boosters and Gas Charging Equipment
- HDP - Heavy Duty Protection (protective cover for dirty environments)
- Mounts

Counterbalance

Counterbalance cylinders handle numerous applications where a holding force or counterbalance is needed.

- Standard Cylinders
- Customized Solutions

Suspension

Hydrop stands for "Lightweight solutions for heavyweight champions" – the ultimate gas hydraulic suspension system for heavy duty off-road vehicles.

- Hydrop
- Customized Solutions

Die Follow Up Service

Book the service to get a free inspection of your dies from a certified KALLER® technician. We will verify that you're equipped with original KALLER® gas springs, to make sure you maintain a safe work environment and a functional production line without any costly issues.

KALLER® Safety App

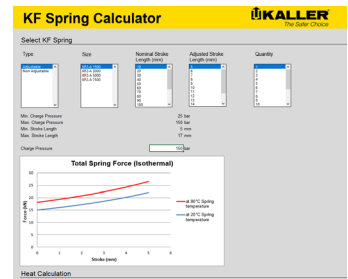

With the KALLER® Safety App you can easily and quickly identify if your gas springs are dangerous counterfeits or real KALLER® ones. Available on iOS, Android, & Online.

Calculators & Configurators

Use our free calculators and configurators to determine the right input variables for your application.

- **Force and Temperature Calculator**
- **Controllable Gas Springs KF Calculator**
- **Flex Cam Configurator**

Case Studies

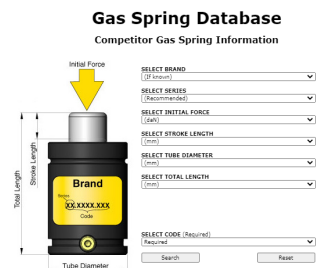

- Advanced cutting tool for EV market
- Speed control gas springs in press tools
- Multi tool for effective flanging
- Advanced flanging with smart tool solutions
- Innovative guiding technology ensures productivity in press tools
- High-volume production with optimized gas spring application
- Gas spring pin cushion plate
- Controllable gas springs in White Appliance production

Gas Spring Database

Need to find an equivalent KALLER® Gas Spring Model?

Here you can search for KALLER® Gas Spring equivalents when you know the other brand's gas spring information.

Training & E-Learning

Gain knowledge, skills, competence, and Safety on gas springs

- **KALLER® Training Program:** In-person training for those who work closely with KALLER® gas springs.
- **KALLER® Academy:** Comprehensive and practical e-learning courses related to force and motion technology.
